

hello fcc (co-run by clear channel)
the petition 04-160 is crap. if we pay for it (xm radio,) we should get to
listen to what we want- plain and simple.
on a side note fm radio these days does not give us what we want to hear at
pretty much any given time of day. so why wait through 3 hours of crappy music
and endless commercials just to hear traffic on fm stations? oh wait... that
would be too convenient
